Series MS01

AVENTICS™ Series MS01

Series MS01

- MS01-PA test block, variant I, with 2 x 3/2-directional valve
- subbase made of Polyamide fiber-glass reinforced
- cleaning pressure can be connected

Grid dimension	27 mm
Standards	ISO 15407-1 26 mm
Working pressure min./max.	4 10 bar
Ambient temperature min./max.	0 50 °C
Medium temperature min./max.	0 50 °C
Medium	Compressed air
Max. particle size	5 µm
Oil content of compressed air	0 0.1 mg/m ³
DC operating voltage	24 V
Voltage tolerance DC	-10% / +10%
Protection class With valve plug connector	rIP65
Duty cycle	100 %
Electrical connection for valve	Plug, form C
Electr. connection	Plug, M12, 5-pin
Valve voltage tolerance	-10% / +10%
Weight	See table below

Technical information

The pressure dew point must be at least 15 °C under ambient and medium temperature and may not exceed 3 °C . The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in the MediaCentre).

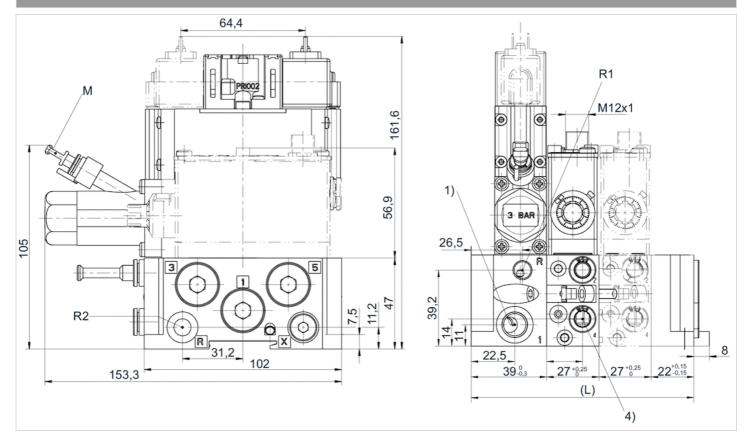

The pressure regulator is preset at 3 bar . Expansion options available for pilot valves.

Technical information

Material	
End plates	Aluminum
Seal	Acrylonitrile butadiene rubber
Subbase	Polyamide fiber-glass reinforced

Technical information

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C under ambient and medium temperature and may not exceed 3 °C .

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in the MediaCentre).

Versions with voltage of less than 50 V DC do not have a protective ground.

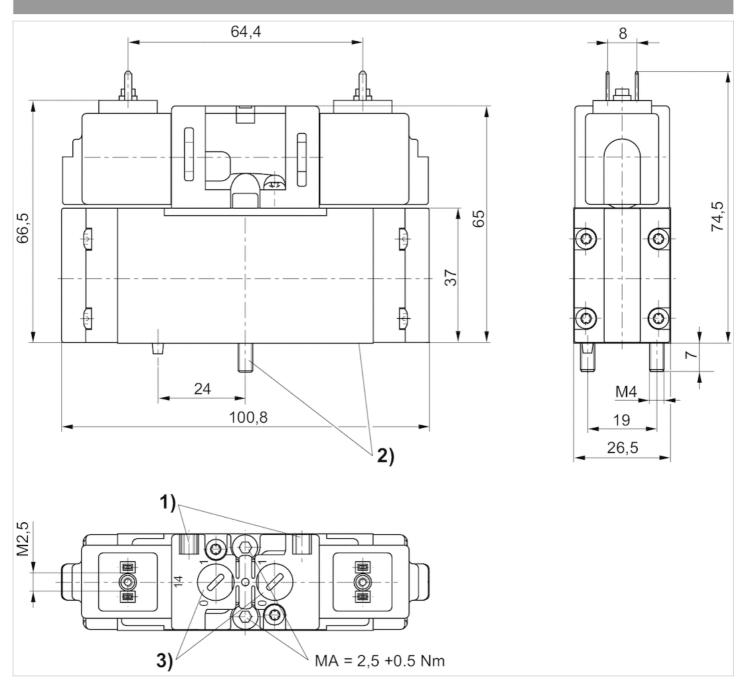

Technical information

Page 31 | AVENTICS

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 $^\circ\text{C}$ under ambient and medium temperature and may not exceed 3 $^\circ\text{C}$.

The oil content of compressed air must remain constant during the life cycle.

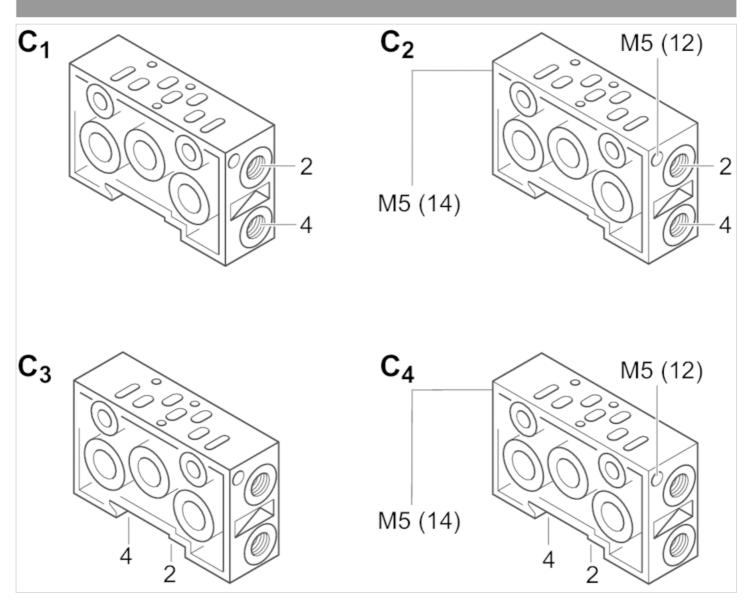

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in the MediaCentre).
